

SUBJECT INDEX

This index does not include routine reports of clubs, societies, concerts etc or moot reports

Notices of non-Inn appointments are included only when they contain biographical, career or personal information unlikely to be noted elsewhere

Where headings with more than one entry over a period of time contain titles of nobility or where headings contain job titles the title included is always the highest or latest.

One-off references to Inn staff are indexed up to 1992/3; from 1993, Graya includes a list of staff members so only significant references to staff are indexed.

Portrait photographs are generally described as portraits unless it is necessary to distinguish them from paintings and drawings

There are separate indexes for authors and obituaries

	Vol/page
